GLOSSARY

[View Full Glossary](#)

- First Owner**
 When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- New Owner Reported**
 When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.
- Ownership History**
 CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
- Title Issued**
 A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Rollover Resistance

LEGEND

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) ,

[side impact crash test](#) , and [rollover resistance](#) . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

Restraints/dummy kinematics	G

LEGEND

G	Good
A	Acceptable
M	Marginal
P	Poor

Important: Frontal crash test ratings can be compared only among vehicles of similar weight. *<p>The Lexus IS 300 was introduced in the 2001 model year and structurally modified beginning with 2002 models to improve occupant protection in frontal offset crashes.</p> Dummy movement was well controlled. During rebound, the dummy's head hit the B-pillar. Measures taken from the dummy indicate a low risk of any significant injuries in a crash of this severity. Head acceleration from the B-pillar hit was low. 2002 Lexus IS 300 4-door 3395 front head curtain airbags and front seat-mounted torso airbags 105 177 68 3.2 L 6-cylinder 18 25*

Crash Tested Vehicle: [Details](#) | [Vehicle Specifications](#)

Insurance Institute for Highway Safety (IIHS) uses frontal offset and side impact crash tests to estimate the crashworthiness of a vehicle. These results are good indicators of how a frontal and side impact can structurally impact a 2004 LEXUS IS 300 . The crashworthiness data for this 2004 LEXUS IS 300 was provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these crash test results.

Rear Crash Cost:

Not tested by IIHS
Not tested by IIHS

Not tested by IIHS

Insurance Institute for Highway Safety (IIHS) conducts four 5 mph crash tests to assess bumper performance. These results convey how well this 2004 LEXUS IS 300 bumpers will protect the car body from damage in low-speed collisions. Low-speed damage repair costs are obtained from the Insurance Institute for Highway Safety, Highway Loss Data Institute.

[Back to top](#)

Injury, Collision, & Theft Indicators

Index:	Score:	Rating:
Injury Index	123	Worse than average
Collision Index	214	Substantially worse than average
Theft Index	156	Worse than average

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. The injury, collision, and theft indicators for this 2004 LEXUS IS 300 are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these results.

New Car Test Drive Review

Category:	Review:
Summary:	The enthusiast's Lexus. By Sam Moses, NewCarTestDrive.com
	The Lexus IS 300 offers ride, handling, power, brakes, comfort and price comparable to the BMW 3 Series and other sports sedans.
	The IS 300 SportCross is an excellent concept with tremendous promise. If it had an available roof rack and either a manual gearbox or sportier programming of the

auto/manual transmission, it would fulfill that promise. In both cases, we were particularly impressed with the braking and handling.

Overview:

The Lexus IS 300 is the rogue of the family, a compact four-door sedan combining sassy looks and snappy performance with the superior quality control associated with the Lexus name. Inside and out, it looks like nothing else in the Lexus lineup.

The Lexus IS 300 is comparably priced with the more conservative Lexus ES 330, but is targeted toward a younger audience. While the ES 330 uses a V6 and front-wheel drive, the IS 300 uses an inline-6 and rear-wheel drive. The ES is smooth and sophisticated; the IS is hip and aggressive. With rear-wheel drive, a responsive six-cylinder engine, and the road-hugging handling of a German touring car, the IS 300 offers a compelling alternative to the benchmark BMW 3 Series and Infiniti G35.

The IS 300's high-tech 3.0-liter inline six-cylinder engine is smooth and powerful, producing 215 horsepower. It's available with either a manual gearbox or a five-speed automatic that shifts automatically or manually via buttons on the steering wheel. It's also available as a sport wagon called the SportCross.

Model year 2004 brings some minor revisions to the front and rear styling, mist-type wiper nozzles, and some minor interior tweaks. Otherwise the IS 300 remains unchanged from last year.
